

PreK-3rd Grade Implementation: Mapping Activity for Session 5 (Competency 5)

Leadership	Professional Practice (competencies)	PreK-3 Systems
What changes are needed in classroom observations and management?	What changes to instruction are needed in our learning community based on the child's perspective?	Do we use observational tools to assess teacher practice and effectiveness? Describe.
How do I know that teachers feel supported in their work?	Is there evidence that teacher instruction and effectiveness are improving over time? Describe.	How are we bringing community resources into the learning community? How can we?
How do I continue to build my knowledge about what is age and developmentally-appropriate?	How can we provide release time and other supports for teachers to observe each other's classrooms?	What changes can we make to align schedules, budgets and other resources with engaging staff in how to support effective learning?
