

## PreK-3rd Grade Implementation: Mapping Activity for Session 5 (Competency 6)

Leadership	Professional Practice (competencies)	PreK-3 Systems
How am I serving as a bridge between early learning services (childcare, preschool and home care) and my elementary school?	What professional learning support are we offering teachers to improve our capacity to communicate with and engage families?	Is family and community engagement part of our expected job descriptions, work, etc.?
How do I act to ensure that all children, especially those from disadvantaged households, have access to extended learning opportunities?	How do teachers engage families in understanding and supporting their children's progress?	Have we mapped the afterschool and summer learning opportunities available to children in our school and made parents aware of them? Is there more we could do or provide?
How do I support family engagement and convey its importance to staff, families, and stakeholders?	How do teachers work together to provide meaningful transitions?	Do we have designated teams to think about what's needed to improve our learning community, based on staff and community input?
